

I urge the FCC commissioners to promote a diverse, balanced, and competitive media. I don't think this will be achieved with greater consolidation of media ownership. That's what will happen if the ownership rules are relaxed. Please do not allow this rule change to go through. I believe that our democracy depends on many different groups owning the various media outlets. In my opinion, the results of the previous relaxation of the ownership rules have been disastrous.

We allow media companies to use the airwaves in exchange for their assurance that they're serving the public interest, and it's the FCC's job to make sure that's so. Please oppose the rule change.

Sincerely,

Lisa Rothman
